

HouseCalls Pro Surveys

Televox Surveys is a powerful tool that allows healthcare providers and health systems collect valuable feedback from patients, staff, and other stakeholders. It offers a wide range of features and customization options, including a drag-and-drop interface and detailed analytics.

Surveys can bring several benefits to your organization, including:

-  **Improved patient care**
 Surveys can help you improve patient care by providing you with valuable feedback from patients, staff, and other stakeholders.
-  **Increased efficiency**
 Surveys can help you increase efficiency by automating the survey creation, deployment, and analysis process.
-  **Reduced costs**
 Surveys can help you reduce costs by eliminating the need to hire a third-party survey company.

Satisfaction Surveys

- **Patient satisfaction surveys:** used to collect patient satisfaction surveys, which can be used to improve the patient experience.
- **Staff satisfaction surveys:** used to collect staff satisfaction surveys, which can be used to improve employee retention and morale.
- **Stakeholder surveys:** used to collect surveys from other stakeholders, such as payers, community members, and policymakers.
